Keep Your Business Running Smoothly With Total Tech Managed IT Services

Total Tech provides San Diego small businesses with the same level of IT support that Fortune 500 companies depend on. Based on a flat rate, monthly service which includes all of the software, services and support required to keep your business running smoothly, Total Tech provides around-the-clock monitoring of your network and computers to prevent downtime, outages and other technical problems before they interrupt your business.

Total Tech Support serves as your full-time IT department, for far less than the cost of a full-time employee.
